

**Chief Accountant  
Irina Ohanyan**

Irina Ohanyan has joined SEF's team at 2004 to develop Organization's financial accounting and risk management systems. She has perfected Organization's financial and informational systems, automated accounting processes, report preparation and presentation processes by creating centralized risk management system.

By Mrs. Ohanyan's direct participation a new informational system has been launched at Organization.

Before joining SEF Mrs. Ohanyan has worked at scientific research field for almost 8 years. As an engineer, she has made radiophysical measurements and calculations. Later Mrs. Ohanyan joined banking sector and has been working there for already more than 20 years. She has worked at Armenian Development Bank for 12 years, where she has prepared journal entries, accounts analysis reports, suggested more effective ways of accounts arrangement, created new groups and types of accounts, which allow getting the basic financial statements without spending time on their preparation. At Armenian Development Bank Mrs. Ohanyan has perfected different banking and informational service systems, by making them more flexible and applicable for customers.
